FINANCIAL MATTERS

Our school is a public school but one needs to view it as a semi-private school as the Education Department only pays for some teachers' salaries. The school fees are set by the School Governing Body and the Parent Body each year at the annual budget meeting to cover the running costs of the school as well as pay for additional teachers' salaries. Our classes average between 25 – 30 learners and therefore we have a substantial salary bill each year to ensure that our class sizes do not reach the excessive numbers as prescribed by the department.

You will receive a minimum of 4 statements of your school fees account each year reflecting your outstanding balance. The full year's school fees are posted in the beginning of the year. All parents are compelled by law to pay the full amount in the beginning of the year, but we realise that this may be difficult for some. We have therefore allowed parents to pay the fees over 10 months starting from January to October each year. A deposit will be requested every year which must be paid by the end of November. This amount will go towards your school fees for the following year. Parents who pay the full school fees before the end of February qualify for a 10% discount.

The school fees are reviewed each year at the Budget Meeting of the SGB and parents can expect an annual increase to cover the running costs of the school.

The school has also introduced Snapscan to allow parents to pay school fees, fundraising events and excursions from their cellphones. School fees can also be paid via your banking app, internet banking and cellphone banking. It is advisable to schedule a monthly payment a day after your payday for school fees. Please make sure that you list the school as a recipient on your banking account. Other ways of paying is at an ATM or a branch of Standard bank. Cash and card payments are accepted at school.

Parents are advised to contact the Bursar immediately when they are unable to make payment of school fees. An arrangement will then be made to repay the arrears. These arrangements are promises parents make to settle the account and the school expects that the parents will stick to their promises.
